User Interface (UI) overview

Home screen

The Home (default) screen is displayed when the phone is in the idle state. The Home screen displays status indicators, user directory number, avatar, last dialed number, time, date and list of programmable softkeys.

Call screen

When on an active call, caller's avatar, name, number and call duration timer is displayed. The context-sensitive softkeys are updated with applicable call handling features.

Applications

Contacts

The Contacts application stores personal phone book and directory. The Mitel MiVoice 6940 IP Phone supports a localized Personal directory, interoperability with LDAP (corporate) directories, and enhanced MobileLink functionality, which allows you to sync your mobile contacts with your 6940 IP Phone.

Making a call using the Contacts application

- 1. Press the key to access the Contacts application.
- Tap the respective contacts folder and scroll through the contacts by swiping up and down on the list

Or

Tap the search field, enter characters using the on-screen keyboard, and tap the blue **Enter** key to use the search feature.

When the applicable contact is highlighted, tap the **Dial** softkey to place a call using the entry's default phone number

or

To place a call to a different phone number defined for the entry (for example, a mobile number), tap the > key to access the contact card screen, and then tap the phone number to dial.

Call History

The Call History application displays a list of your missed, outgoing and received calls as well as My Mobile and Missed calls. You can view, delete and dial out to call history entries as well as copy entries to the Contacts application.

Using the Call History application

- 1. Press the key to access the Call History application.
- Tap the respective contacts folder and scroll through the entries by swiping up and down on the list. To view additional call details, tap the key when the entry is highlighted.
- Tap the Dial softkey to place a call to the respective entry or Tap the Add Contact softkey to copy the entry to your Contacts application or Tap the Delete softkey to delete the entry from your Call History.

Voicemail

When voicemail functionality is enabled, the MWI LED on the Mitel MiVoice 6940 flashes red and the (Voicemail) icon displays on the status bar indicating that voicemail messages are available. You can access your voicemail service by pressing the Voicemail key

Advanced call handling

The Mitel MiVoice 6940 IP Phone provides a method for transferring calls through the **Transfer** softkey.

Transferring a call

- 1. Ensure you are on active call with the party you wish to transfer.
- 2. Tap the **Transfer** softkey. The active call is placed on hold.
- 3. Enter the transfer recipient's number and tap **Transfer**.

The trademarks, service marks, logos and graphics (collectively "Trademarks") appearing on Milel's Internet sites or in its publications are registered and unregistered trademarks of Mitel Networks Corporation (MNC) or its subsidiaries (collectively "Milel") or others. Use of the Trademarks is prohibited without the express consent from Milel. Please contact our legal department at legal@milel.com for additional information. For a list of the worldwide Milel Networks Corporation registered trademarks, please refer to the website: http://www.milel.com/trademarks.

Mitel's Power Over Ethernet (PoE) Powered Device (PD) products are covered by one or more of the U.S. patents (and any foreign patent counterparts thereto) identified at Mitel's website: www.mitel.com/patents. For more information on the PD patents that are licensed please refer to www.cmspatents.com.

Creating a multi-party conference call

- Ensure you are on active call with one of the parties with whom you wish to create a conference.
- Tap the Add User softkey. The active call is placed on hold.
- 3. Enter the conference target's number.
- 4. Wait for an answer, consult, and then tap the **Join Calls** softkey to create the three-way conference call.
- Repeat steps 2 to 4 to add an additional party (maximum of seven participants) to the conference.

MobileLink features

The Mitel MiVoice 6940 IP Phone supports MobileLink, a feature that provides seamless mobile integration using Bluetooth wireless technology. MobileLink highlights include the ability to:

- Sync your mobile phone's contact list and call history with your 6940 IP Phone.
- Answer a mobile phone call using your 6940 IP Phone.
- Move active calls between the 6940 IP Phone and your mobile phone.

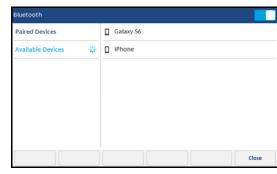

Pairing a mobile phone using Bluetooth

- 1. Press the key and tap the **Bluetooth** icon.
- 2. Swipe the _____ toggle switch to the right to enable Bluetooth functionality. Ensure your mobile phone is discoverable as the Mitel MiVoice 6940 IP Phone automatically scans for available Bluetooth devices.

Note: For information on how to make your mobile phone Bluetooth discoverable, refer to the documentation provided with your respective mobile phone.

- 3. When your mobile phone has been discovered, tap the respective entry on the list of available devices.

 A Bluetooth pairing request displays on both the Mitel MiVoice 6940 IP Phone and your mobile device.
- 4. Ensure the pairing code matches on both devices and tap **Yes** on the Mitel MiVoice 6940 IP Phone and acknowledge the pairing request on your mobile phone.

The Mitel MiVoice 6940 IP Phone attempts to pair the mobile phone and if successful, automatically attempts to connect to the mobile phone.

Tap the **OK** button to acknowledge the successful connection.
 The connected mobile phone is added to the list of **Paired Devices** and is ready to use.

Syncing mobile contacts

The Mitel MiVoice 6940 IP Phone automatically syncs your mobile contacts to the Contacts application upon pairing and connection.

For iPhones, you will need to go into Settings > Bluetooth, and find your Mitel IP Phone under 'My Devices'. Click on it and ensure 'Sync Contacts' is set to ON.

To manually update your mobile contacts:
